FOLLOWING RECENT STUDIES THE LAND OF ORIGIN OF THE RIBOLLA GIALLA HAS BEEN LOCATED AMONG THE EASTERN HILLS OF FRIULI VENEZIA GIULIA, THE "COLLIO" AND "GORISKA BRDA" (SLOVENIAN HILLS). FOLLOWING THE CONQUEST OF THE REGION BY THE "SERENISSIMA" REPUBLIC OF VENICE DURING THE MIDDLE AGES, THIS VINE HAS ALSO BEGUN TO INTEREST VENETIAN NOBLE FAMILIES AND STARTED TO BE CULTIVATED IN OTHER AREAS OF FRIULI. IN 1850 THE "PHYLOXERA" DECREED THE END OF ALMOST ALL AUTOCHTHONOUS FRIULIAN VINEYARDS. THE HABSBURGS, WHO DOMINATED IN THE EASTERN PART OF THE REGION, PRESERVED THE VINES AND TOWARDS THE END OF THE 20TH CENTURY THE INTERNATIONAL INTEREST IN THE WINES OF FRIULI VENEZIA GIULIA LED TO AN INCREASE IN RIBOLLA GIALLA PLANTATIONS THROUGHOUT THE WHOLE TERRITORY.

IN SACILE THE VINEYARD GROWS ON THE BANKS OF THE LIVENZA RIVER, WHICH, OVER THE CENTURIES, HAS CONTRIBUTED TO ITS FORMATION OF A FERTILE SOIL RICH IN CLAY AND MINERALS FROM THE NEARBY FRIULI'S PRE-ALPS, THE SAME RIVER LIVENZA TODAY CONTRIBUTES TO MITIGATE THE CLIMATE OF THE NEIGHBORING FIELDS. HERE LE FAVOLE HAS SUCCESSFULLY EXPERIENCED THE CULTIVATION OF RIBOLLA GIALLA VINES WHICH, THANKS TO A HIGH QUALITY ENOLOGY, HAS MADE IT AN INTRIGUING, DRIVEN WINE, BRINGING IT TO ITS MAXIMUM EXPRESSION WITH THE CLASSIC METHOD.
